ScanMy.Band

High-grade, flexible silicone

✓ How It Works

1. The wristband is scanned with any smartphone
2. The wearer's emergency profile appears instantly
3. You get a notification with a map of the scan location
4. No app, no delay – just peace of mind
5. You control the info – update it anytime

🔒 Safe & Private

- No GPS tracking
- No subscription fees
- No battery - no charging
- Australian-made and owned
